

## **Club Accounts**

### **Past Due Club Balance/Suspension**

Each month governors receive a recap of accounts, which details the aging for all clubs in the district. The recap can be used as a tool to remind all clubs that per capita billing and club supplies are paid timely and regularly. United States balances over 60 days old are considered past due. Balances for all other countries over 90 days old are considered past due.

The district governor may be contacted and asked to consider options for helping to resolve outstanding balances for clubs that are exhibiting a poor payment trend. Interaction with the clubs may prove to have a greater influence to achieve a current status. Please contact Membership Billing and Accounts Services at [membershipbilling@lionsclubs.org](mailto:membershipbilling@lionsclubs.org) for assistance in this regard.
