

Lions Family & Women Symposium Program

As the emphasis on family-friendly Lions clubs and growing women in Lions continues, it is important for clubs to identify relevant service opportunities that will spark the interest of families and women. An excellent avenue for pinpointing these needs is to hold a Family and Women Symposium. The purpose of a Lions Family and Women Symposium is four-fold:

1. Identify new community projects that are of interest to women and families.
2. Identify potential members.
3. Promote Lions clubs within the community.
4. Charter a new club/club branch to develop the new community project that has been identified.
